

Figure 1
Protozoa Found in Stool Specimens of Humans: Amebae

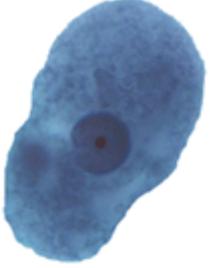

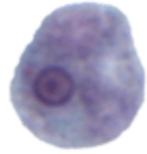

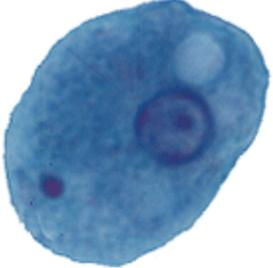

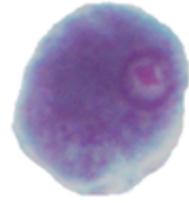

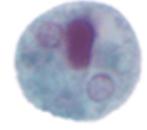

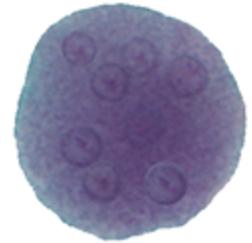

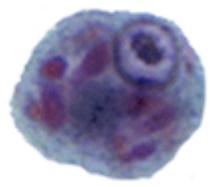

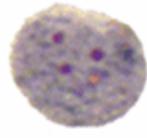

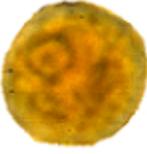

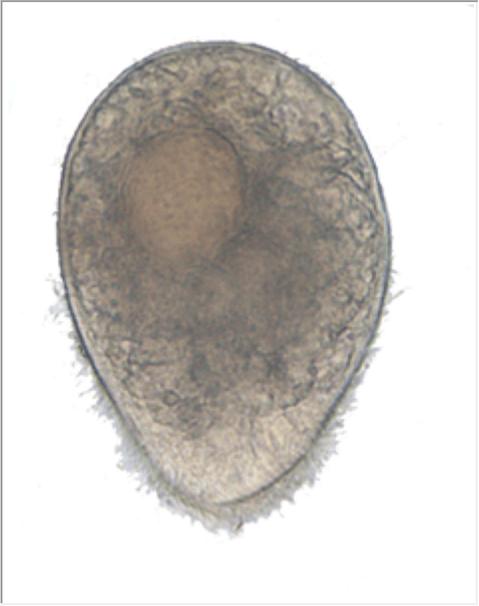

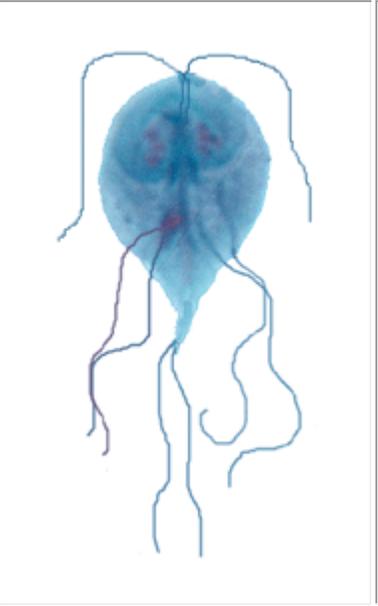

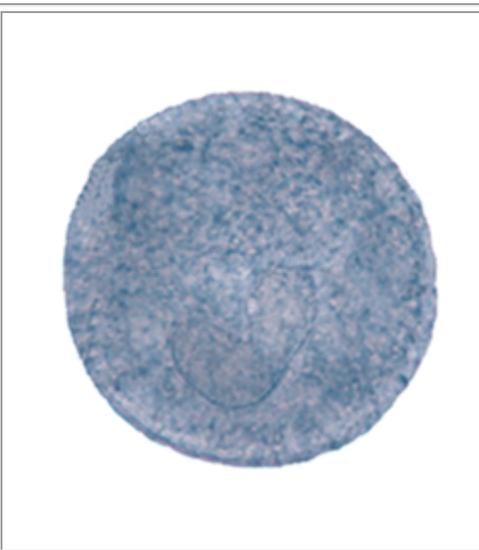

Amebae						
	<i>Entamoeba histolytica/dispar</i>	<i>Entamoeba hartmanni</i>	<i>Entamoeba coli</i>	<i>Entamoeba polecki</i>	<i>Endolimax nana</i>	<i>Iodamoeba beutschlii</i>
Trophozoite						
Cyst						
						
Scale	 10 μm					

Figure 2
Protozoa Found in Stool Specimens of Humans: Ciliate and Flagellates

	Ciliate	Flagellates		
	<i>Balantidium coli</i>	<i>Chilomastix mesnili</i>	<i>Giardia intestinalis</i>	<i>Dientamoeba fragilis</i>
Trophozoite	 A large, pear-shaped trophozoite of Balantidium coli with a thick, ciliated outer layer and a distinct nucleus.	 A pear-shaped trophozoite of Chilomastix mesnili with a prominent nucleus and several long, thin flagella extending from the anterior end.	 A pear-shaped trophozoite of Giardia intestinalis with a characteristic pear shape, a large nucleus, and several flagella.	 A small, circular trophozoite of Dientamoeba fragilis with a pinkish hue and a few flagella.
Cyst	 A large, spherical cyst of Balantidium coli with a thick, multi-layered wall and a granular interior.	 A small, oval-shaped cyst of Chilomastix mesnili with a thin wall and a central nucleus.	 A pear-shaped cyst of Giardia intestinalis with a thin wall and a central nucleus.	no cyst stage

				
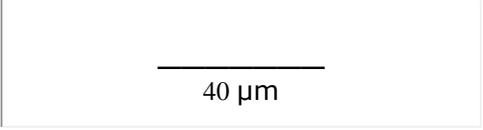

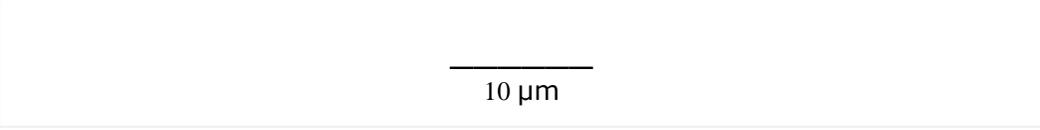

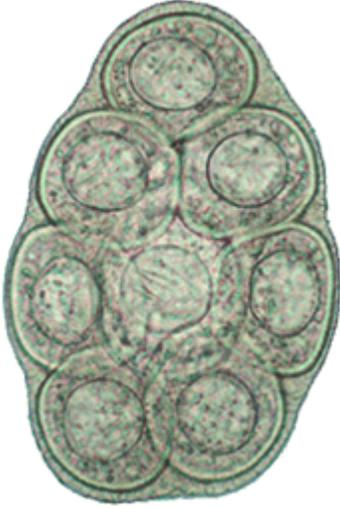

Scale	 <p>40 μm</p>	 <p>10 μm</p>		

Figure 4
Nematode and Cestode Eggs Found in Stool Specimens of Humans

Nematodes						
						
<i>Capillaria philippinensis</i>	<i>Enterobius vermicularis</i>	<i>Trichuris trichiura</i>	<i>Ascaris lumbricoides</i> fertile	<i>Ascaris lumbricoides</i> infertile	Hookworm	<i>Trichostrongylus</i> spp.

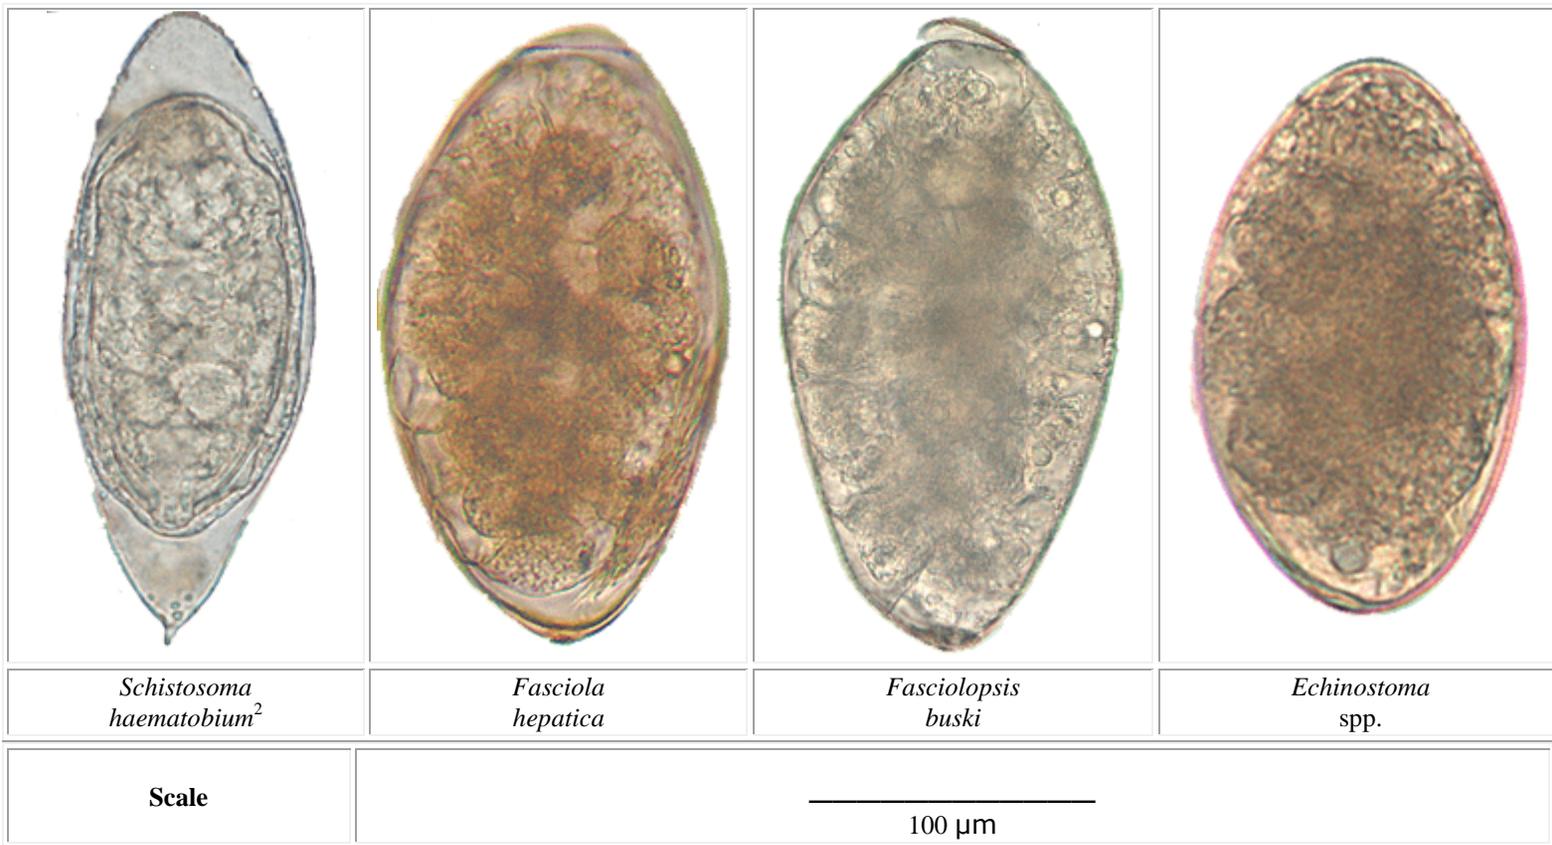

Cestodes				
				
<i>Taenia</i> spp.	<i>Hymenolepis nana</i>	<i>Hymenolepis diminuta</i>	<i>Diphyllobothrium latum</i>	<i>Dipylidium caninum</i>

Scale

50 μm

Figure 5
Trematode Eggs Found in Stool Specimens of Humans

Trematodes			
			
<i>Clonorchis sinensis</i>	<i>Opisthorchis viverrini</i>	<i>Paragonimus westermani</i> ¹	<i>Nanophyetus salmincola</i>
			
<i>Schistosoma japonicum</i>	<i>Schistosoma mekongi</i>	<i>Schistosoma mansoni</i>	<i>Schistosoma intercalatum</i>

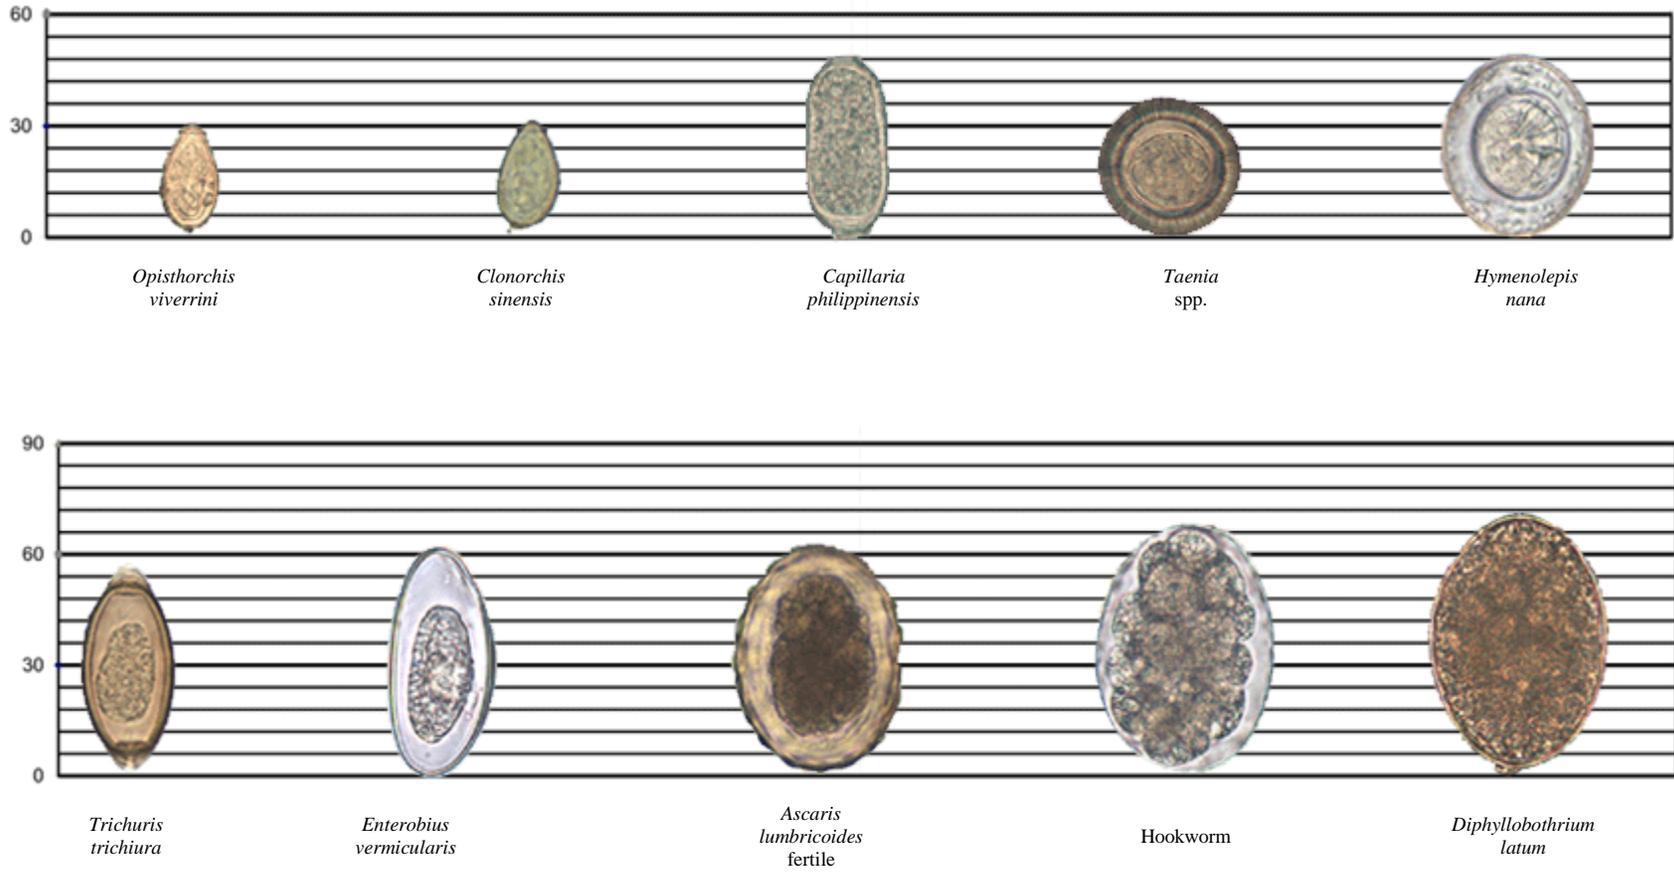

¹Usually found in respiratory specimens.

²Usually passed in urine.
